LIGHTNING STRIKES AND THUNDERSTORMS

This procedure is in place to protect driver, officials, volunteers, and spectators from lightning and thunderstorm risks. It is to be followed in accordance with Appendix 8 – Lightning Strikes and Thunderstorm Rules of the Karting Australia National Competition Rules.

1. Appointment and Responsibilities

The Clerk of the Course (CoC) must appoint a Lightning Safety Officer (LSO) whenever thunderstorm or lightning risk is identified. The LSO monitors Bureau of Meteorology radar or lightning detection apps, and on-site conditions, advising the CoC of imminent risk. All Officials, volunteers, and personnel must follow directions regarding the suspension of activity, movement to Safe Shelters, and securing the venue.

2. Lightning Hold

A Lightning Holm must be implemented immediately if lightning is detected within 10km, the flash-to-bank time is 30 seconds or less, or the CoC/LSO determines lightning is in the immediate proximity. During a hold:

- The red flag is displayed, and all track activity ceases.
- Grids, refuelling, scrutineering, and paddock operations are suspended.
- All persons must move to designated Safe Shelters (as directed by the CoC or LSO)
- Unprotected structures, trees, tents and open grandstands are not safe

3. Resumption ("All Clear")

Activity may resume only when at least 30 minutes have passed since the last lightning strike within 10km and last thunder, and the LSO confirms improving conditions. For Meetings, the CoC must confirm the track is safe and Stewards approve resumption.

4. Compliance and Safety

This procedure aligns with AS 1768:12021 and Karting Australia guidelines. Safety take precedence over scheduling, broadcasting, or event timing, and the CoC's decision to suspend or resume activity is final. All Officials must maintain a Lightning Log and have it listed in the Stewards Report recording alerts, holds, all-clear calls, and communications.
